WHAT IS LONGO?

Longo is a modular system consisting of sofas and operative managerial desks, which function in a multi-faceted manner. Longo provides storage solutions (cabinets, libraries), accessories and sound absorbing panels that are decoratively unified to inspire an enlivening environment.

The configuration of Longo stems from a solid extruded aluminium structure on which we attach the cast iron legs to achieve the desired environment, while always maintaining a unitary visual concept.

Longo enables more friendly, open and relaxed environments, where formal structures and dynamic spaces thrive to create a harmonious environment.

**OPTIONAL ELECTRIFICATION SYSTEM ACCESSORIES**

- Cable tray for individual desks
- Metallic wiring container for T access
- Large capacity cable tray for twin desks
- Cable spine (polystyrene) - maximum length 132 cm
Technical Profile

**MFC**
90 and 120 gsm/m2 density MFC faced board 19 mm thick, PEFC certified. The PVC edging is exclusively designed and manufactured by Actiu providing a high quality finish to the product. The edge is 2 mm thick, radius of R: 2 mm. Highly durable and 100% recyclable.

<table>
<thead>
<tr>

</thead>
</table>

**Glass**
Laminated Security glass with internal translucent layer. Thickness available in 5.5 and 6.6 mm for desk surfaces. 4.4 mm for Screens, reception counter front panels and glass doors.

The laminated glass is the result of linking two or more glass sections, linked by PVB layers (butiral polivinil). This material combines the specific glass properties such as transparency and durability.

Extra clear tempered glass
Low level of iron oxide, it offers colourless luminosity (no green tones), 10 mm thick. The tempered glass has maximal scratch and impact resistance. 100% Recyclable.

<table>

</table>

**Dekton®** *(For projects)*
Dekton® employs exclusive Sinterized Particle Technology, a high tech process which represents an accelerated version of the metamorphic change that natural stone undergoes when subjected to high temperatures and pressure over thousands of years. The sinterization and ultra-compaction process leads to a zero porosity material.

<table>
<thead>
<tr>
<th>5R SIROCCO</th>
</tr>
</thead>
</table>

**C.Laminate** *(For projects)*
Compact Laminate board 13 mm thick, manufactured by high pressure laminated phenolic resins. Black core, and white (subtle grey touch), wengue, black or dark orange top. High pressure Laminate support the pressure 90kg/cm2 and 150°C temperature in special presser which provides the resins polycondensation.

LONGO DESKS

**DESCRIPTION**

1. **Extruded aluminum profile.**
2. **Attachment brackets made from injected aluminum.**
3. **Feet injected with aluminum. Two models:**
   - Fixed height 74 cm.
   - Adjustable height 74-82 cm.
4. **Feet injected with aluminum with anti-slip leveller.**
5. **Surface in different finishes:**
   - 19 mm thick melamine in white, lime oak, chestnut or ash.
   - 13 mm thick Compact in white or chestnut.
   - 10 mm thick glass in black or white.
   - 12 mm Dekton finished in sirocco. (onland for projects)
6. **Access to optional wiring with “Push Latch” system, finished in white, silver or black.**
7. **Optional accessories connected to the table top: cable tray, CPU supports, etc...**
8. **Optional accessories for desktop: desktop screens, auxiliary cabinets,...**

**STRUCTURE**

- **Structure** formed of extruded aluminum profiles covered with an epoxy paint, finished in white, silver and black. The profiles have a joining sandstem, Actiu registered band which enables items to be linked to create infinite possibilities.
- **Feet** injected with aluminum in a pandramid shape, covered in epoxy paint in white, silver, black, polished finishes or finished by hydroprinting in Teak finish. Leveler made from injected aluminium with an anti-slip sole.
- **Injected aluminum brackets** for joints, covered in epoxy paint in white, silver, black and polished finishes.

**SUPPORTS**

The legs are offered with two types of supports:

- Levellers
  - Total height: 74 cm
- Height adjustment
  - Total height: 74-82 cm

**FINISHES**

Structure, legs and brackets are all offered in the following finishes:

- White
- Silver
- Black
- Frame Black
- Polished legs
- Frame White
- Teak legs
LONGO ACCESSORIES

**ELECTRIFICATION SYSTEM**

An integrated electrification system which enables effective management of cabling and easy installation. It has a steel tray with a large capacity which sits under the work surfaces, which is accessed by via an aluminium door supported on a central beam.

- Metal tray made from 1mm steel, great capacity for wires and connections for twin desks. Maximum accessibility optimizing the work surface, enables optimal wiring management. Two models available
  - Fixed height
  - Height regulation (three positions)

- Polystyrene tray for individual or twin desks with wiring and connections. Maximum accessibility optimising the work surface enabling optimal wiring management. It is anchored directly to the beams of the Longo structure.

- Output wiring and connections, allow quick and easy access to the connections and wiring from the surface of the tables.

**OPTIONAL ACCESSORIES**

Longo has modesty panels, CPU supports, desktop screens.

- CPU holder. 25-30x49 cm and 1,5 mm thick
- Desktop screen
- Modesty panel

**DESKTOP SCREEN**

Longo has its own system of desktop screens which are anchored directly onto the surface of the table, giving great stability and aesthetic appeal. Fully upholstered, with aluminum profile or rail guides for fixing 3rd level items, soundproof and glass composition, the new desktop screens offer many possibilities. Longo also has movable desktop screens incorporating a stable support system without fixation, which allows the user to change the position of the screen according to their needs at any moment.

- Fixed desktop screens placed on the surface of the desktop.
- Mobile desktop screens
LONO has passed tests done in our technical department as well as the tests done in AIDIMA the Technological Institute for furniture. The tests correspond to:

- **UNE: EN 527-2:2003.** Office Furniture. Desks. **Part 2:** Mechanical security requirements.
- **UNE: EN 15372:08.** Office Furniture. Strength, durability and safety. Requirements for domestic use desks.
- **UNE: EN14073-2:05.** Office furniture. Tables and desks and storage furniture. Safety requirements.
- **UNE: EN 14073-3:05.** Office furniture. Tables and desks and storage furniture. Test methods for the determination of stability and strength of the structure.
- **UNE: EN 14074:05.** Office furniture. Tables and desks and storage furniture. Test methods for the determination of strength and durability of moving parts.
